

## **Reporting: On community Camp and various activities**

Organizing community camp is an integral part of B.ed course under Dibrugarh University. Bihpuria PGT College is under Dibrugarh University which strictly follows the curriculum of the university. As a part of the course, Bihpuria PGT College has organized a community camp at the village No 2 Jakai Pelua on 20/05/2019. There are various activities of community camp among which we sought to perform only following activities.

### **a. Socio-economic Survey:**

Socio-economic survey is an important method to understand the socio-economic status of a given society. So, in order to know the socio-economic status of the No 2 Jakai Pelau village, our teacher trainees conducted a socio-economic survey for the same and all participants were submitted their report to the college. Before going to the field, the trainees were instructed regarding the concept of socio-economic survey, way of collecting data, methods of analyses, and way of reporting by instructors of the college and finally send them to the field. Socio-survey was followed by two need based programmes namely health & hygiene and HIV (AIDS and Drug Abuse).

### **b. Awareness Programmes:**

As mentioned above, the socio-economic survey was followed by two need based and awareness programmes such Health & Hygiene and HIV AIDS & Drug abuse. As we know that health &

hygiene is one of the most vulnerable problem not only a single society but all over India. It's mostly seen in the rural Indian society.

The programmes were organized immediately next day of the community survey. The programme was organized in the Bimala Prashad Chaliha Higher Secondary School with the collaboration of Bihpuria Public Health Centre, Bihpuria. The programme was inaugurated by the respected principal of the school and followed by many speeches of many dignitaries invited for the specified purpose especially by Dr. Monuj Bora, a well known Dr. of Bihpuria PHC and some entertaining programmes too by our college trainees. Dr Monuj Bora, in his speech, explained very beautifully about the causes and problems of Health & Hygiene & its effects on human body. He also talked about the causes and problems of HIV AIDS.

Herewith some still photos are attached related to various activities of community camp.
